

CISC 211 Hw 2-2/3

First Assembly program

Make an assembly language program that displays:

[I came,
I saw,
I conquered.]

Flow chart: Where do I start?

Review Environment Setup
Video and set it up

Review Lecture material

Create Flowchart to document Process

→ Create the Assembly Program File title: ProgramOne

↓
set up
section .text
global _start
_start:
section .data

→ Go back to lecture and find "printout" section.

↓
Create new version in file where STDOUT
lines match assignment

↓
gdb ProgramOne.asm

↓ " " : not in executable format

↓ Re-watch Environment video

Check for errors, found several, fix

↓ ./run.sh ProgramOne

Output Successful

Notes

32-bit registers

EAX, EBX, ECX, EDX
